Zoning Inspection Request Step # 1

Owner(s) must sign the Disclaimer and the front sheet of the Zoning Inspection Request in front of a notary. All signatures must be notarized.

You must provide a tax number for the property where the construction is proposed.

Complete the front sheet of the Zoning Inspection Request. Skip the back as this is for the Zoning Administrator's use.

Follow and do everything on the instruction sheet before turning in the request.

One mistake commonly made is omitting the distances from existing buildings to proposed construction and from the existing and proposed construction to property lines. In addition, the length of each property line needs to show on the drawings.

Turn in to our office: The Zoning Inspection Request, the drawing, and the \$80.00 fee.

I will call the phone number you provide on the Zoning Inspection Request sheet and speak with a person or leave a message informing you of an approval or denial. If you want us to contact the contractor, still put your phone number along with the contractor's name and number.

The rest of the building permit packet will be given to you when you return with your completed Zoning Inspection Request and \$80.00.
